## PROFILE

I'm a 19-year-old student web developer at ROC Tilburg. I have basic knowledge of HTML, CSS, JavaScript for the front-end, but I also started to delve more into back-end techniques such as databases, PHP, MySQL & the associated frameworks for both front-end and back-end. In addition, I learn to work with many different tools for coding and combine these skillsets with graphic design programs from Adobe.

Languages: Dutch & English
